

# Avokiddo ABC Ride

Join Beck and Bo, the children in Avokiddo ABC, on a bike ride adventure to learn letters of the alphabet, and even spell some words. You and your child can pop balloons to see the letter B, watch the K jump out of a kangaroo's pouch, or zap the zebra so the Z will go free. This app is rated as one of the best for learning the alphabet. It is engaging for young children and perfect for building vocabulary as the Beck and Bo explore their environment. Parents can customize the app by selecting upper or lower case letters. This five star app won awards from TeachersWithApps, Cool Mom Tech and AppyMall. Available for \$2.99, this app will provide some quality time with your child as he explores the letters of the alphabet and combines the letters to make some words!
